Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

The U.S. patent references cited on the electronic Information Disclosure Statement (eIDS) filed 2/18/2005 have been considered by the examiner. See the attached for the cited references and examiner's initials. Should the application pass to issue, the cited references would not appear on the front of the patent given that the references were not provided on Form 1449. If applicant prefers to have the cited references listed on the front page of a potential future patent, applicant is advised to submit the references on Form 1449. Examination of the cited references has not necessitated new grounds of rejection. Therefore, no new response period has been given.
